The Machinists Strike.

The strike inaugurated by the Machinists' Union of the United States, on May 20th, still continues all over the country. In San Francisco the strike is general, but most of the foundries are doing considerable work, especially the Risdon Iron Works, who have some large marine and island contracts. In their new works at the Potrero they have been able to get some 600 or 700 men at work on different jobs. A large number of steamers and other vessels are being repaired by the Risdon company, who find no difficulty in finishing the work in time for the vessels to sail on schedule time. It is confidently expected that the strike will be satisfactorily settled in a short time.
